# WHAT IS FIND + CREATE?

Find + Create is a student centered approach to changing the world. We believe that every individual has the ability to create an impact, and when we connect with each other, this potential is expanded to help create something greater.

Find + Create is a way to put plans into action and to find a team of students that share similar passions/visions, working together to create something bigger than themselves

Find + Create is a way to reimagine our current reality and create a better future for the next generations.

# STUDENT IMPACT
